

## Day 02 – Installing Eclipse

Install Eclipse (*it will also be installed on the computers in C-102*)

First, check if Java is already installed on your

computer: [https://www.java.com/en/download/help/version\\_manual.html](https://www.java.com/en/download/help/version_manual.html)

If not, then follow the

instructions: <https://www.oracle.com/java/technologies/downloads/#java21>

Next, install Eclipse: <https://www.eclipse.org/downloads/packages/installer>

Setting up a Project and Class in Eclipse, and "Hello, world." in Java

Demo to Instructor

Export Hello World Project from Eclipse

Create .zip

Upload in Moodle
